

PRODUCT INFORMATION SHEET

3D red laser level

Product description

Professional self-leveling 3D and side laser level for precise defining of vertical and horizontal lines with a laser beam. Its application ensures the highest precision of measurement and the elimination of errors in renovation and construction, finishing, assembly and installation works. It is also applicable to decorating works, e.g. hanging shelves or paintings. It can be used both indoors and outdoors.

Characteristics

- high self-leveling accuracy +/- 4°, manual adjustment is not required;
- working range: beam up to 15 m / diameter up to 30 m;
- red laser beam ensures legibility and clarity of reading;
- self-leveling lock increases the comfort of work;
- 3 measurement options: horizontal, side vertical and horizontal 360° and side vertical;
- measurement accuracy at the level of 0.5 mm/m;
- laser wavelength 635 ~ 660 Nm;
- class II accuracy;
- 1/4" tripod thread;
- IP54 rating will ensure protection against dust and water;
- working time up to 10 hours;
- additional holder with a magnet that makes it possible to fix the level, for example to a steel profile;
- powered by 4 x AA 1.5V batteries;
- compact size and low weight ensure easy storage and transport of the level, which can be a basic equipment of a tool box;
- packed in a practical case that protects the product against dirt and damage.
